

# Chuo Vision 2025

Chuo University has released **Chuo Vision 2025**, a ten-year development plan that includes the relocation of the Law Faculty to one of our downtown Tokyo campuses, the establishment of multiple new faculties, promotion of our global initiatives, and development and excellence in sports. Moving beyond our noted achievements, Chuo University will continue to strive for excellence and develop our historical and newly emerging institutional strengths in order to make a deeper and longer lasting contribution to global society.

## Establishing a stronger global presence

### Mission

To develop individuals possessing global vision and the ability to apply knowledge to practice, who can contribute to society and all humanity.

### Vision

#### Education

Chuo University will offer and expand educational platforms for comprehensive and practical learning that meet the demands of society, to develop individuals who can contribute to humanity.

#### Contribution to Humanity

Chuo will continue to offer and enhance networking platforms for personal connections and collaborative efforts for the betterment of communities and societies through distinctive education and research.

#### Research

Chuo will promote professional and interdisciplinary research providing solutions for complex global challenges.

#### Campus

Chuo will construct and continue to develop comprehensive campuses that create social value and are committed to leading into the future.

#### School Management

Chuo will strengthen and enhance its stable foundation of management to secure the resources needed to achieve its plans and continuous renewal.

# Action Plan

## Establishing New Faculties

New faculties will be introduced in areas such as ICT, media and cultural productions, multilingual and multicultural studies, policy making for aging societies, and community welfare, health and fitness.

## Campus Relocation

The Law Faculty will move from our Tama Campus in western Tokyo to Korakuen, one of our downtown Tokyo campuses.

## Promoting Global Initiatives

Global initiatives will be promoted through courses in English and other non-Japanese languages, international double-degree and joint-degree programs, international joint-research networks, enhanced scholarship programs, eased credit transfer, career counseling, and increasingly diversified faculty and staff.

## Promoting Sports

Chuo will strive to develop further the unique potential of its athletes, those competing in the upcoming Olympics and beyond.

## WHO WE ARE

Established in 1885 as the English Law School, Chuo University was founded by young attorneys who shared the philosophy of “Fostering the Ability to Apply Knowledge to Practice.” Since then, Chuo has grown from a specialized School of Law to a comprehensive university. Dedicated to meeting the demands of today's global society, we aspire to nurture young people through practical education, as reflected in our university motto, “Knowledge into Action.”

- Partnership agreements with **168** colleges, universities and organizations in **33** countries and regions (as of Mar. 2016)
- Funded by Japan's Ministry of Education for the Promotion of Global Human Resource Development Project, 2012-16
- Development of overseas offices across Asia and the Pacific

## OUR STRENGTHS

Chuo University students and graduates have maintained enviable success in difficult national exams. Areas of focus for continued academic excellence include:

- Strengthened support for legal scholarship and preparation for the Japanese Bar
- Enhanced training and preparation for the Japanese CPA Exam to maintain national standings
- Further excellence in developing outstanding business management professionals
- Continued success in maintaining world-class rankings of alumni who are presidents, CEOs and global executives
- Expanded emphasis on Multi-Century Urban Development programs
- Strengthened cooperation with international organizations (UNAI, ILO, the HeForShe campaign)
- Continued expansion and close cooperation with partner institutions overseas in Science and Engineering
