## ▶ Curriculum

With the exception of subjects exclusively provided for international students, such as Japanese Language, international students will basically take the same classes as Japanese students.

As most classes are conducted in Japanese, except those in the Faculty of Global Management\*, a level of Japanese proficiency sufficient to understand specialist lessons is required.

\*In the Faculty of Global Management, about 60% of the subjects are taught in English.

## ▶ Facilities

### ▶ G-Square (Tama Campus)

It is an event space for cross-cultural exchanges between foreign students and Japanese students.

### ▶ Academic Support Center (Tama Campus)

It is a center for academic support located in the educational complex Forest Gateway Chuo. It accommodates the Writing Lab, where international students can receive guidance from graduate students for writing and using Japanese expressions for course assignments and for their graduation thesis.

### ▶ International Education Residence

It is a student residence on Tama Campus where international students and Japanese students can deepen their understanding of different cultures through shared living quarters (boarding fees: 64,000 yen/month and other fees).

### ▶ Chuo University Co-op

The university co-op provides various student services, such as a cafeteria, a shop, training for qualifications, travel, insurance, and accommodation services.

## ► Employment

International students who graduated from Chuo University take active roles in Japanese business in various fields. Students who wish to work for a Japanese company search for employment in their third and fourth years. The university's career center supports students in job search activities.

### Message from Current Student

a third-year student of the department of Political Science of the Faculty of Law

**Choi Ji-woo** (South Korea)

#### 01 The university's entrance exam

I first focused on learning Japanese, thinking it was very important to acquire the language skills to take technical classes at a university. I think it is helpful to read novels and articles in Japanese and look up words you do not know. I also listened to Japanese news during my commute, which I recommend because you can learn not only the language but also about current topics and social issues. In terms of studying for the Examination for Japanese University Admission for International Students, it is important to take as many practice tests as possible, review the questions in which you made mistakes and find out why the answers were wrong to make sure that you will not make the same mistakes.

#### 02 The reason for choosing Chuo University

I was interested in global issues at the time of the entrance exam. As the Faculty of Law at Chuo University offers courses in various fields, including ethics and economics, in addition to the study of law, I thought that here I could study solutions and necessary systems for current issues in society from different perspectives. Chuo also offers many exercise courses with different themes, which allows you to focus your study on a specific field you are interested in. After looking at the pamphlets and curriculums, I thought that Chuo University was the best place for me and decided to study here.

#### 03 Campus life

I have used both Tama Campus and Myogadani Campus. Tama Campus is big and filled with nature, and Myogadani

Please refer to Chuo University's website for more messages from our foreign students.

[https://www.chuo-u.ac.jp/connect/voices/magazine/foreign\\_student/](https://www.chuo-u.ac.jp/connect/voices/magazine/foreign_student/)

Campus is a new campus for the Faculty of Law, which just opened this year, and has good access because of its central location. Both campuses provide a great learning environment and many facilities for students. Japanese courses are mandatory for international students; these courses teach us basic skills, such as report writing, literature searching, and other skills necessary for academic life, as well as giving us an opportunity to socialize with students from many other countries. There are also many on-campus events for us to enjoy campus life, including the university festival Hakumon-sai. Moreover, Chuo University provides robust financial support for international students, which can reduce the tuition fees.

#### 04 Advice for upcoming students

It is difficult to study far away from home in a foreign country. It is a new challenge in your life but also a valuable experience. I know that you are having a stressful time, worrying and being anxious about going to college and studying for the entrance exam. I hope your hard work will lead to success and look forward to meeting you on the campus.
